## THAT BAD BURGLAR AGAIN.

During the past winter we have frequently noticed in our columns the antics of some persistent and daring burglar, who seems to have a passion for entering business houses.

Not over three weeks ago we recounted the playful pranks of one of these midnight prowlers in crawling over the tannery of Mr. Tom Wenzler's place of business, and supplying himself with a little pocket change and a lot of the "fragrant weeds," and now we have the reporter's pleasure of chronicling a similar visit to the store-house of Messrs. Kincannon, Wood & Co., on last Tuesday night.

The thief entered the basement of their house by raising the covering of the outside on the sidewalk and dropping below where he made his way to the steps leading to the upper story, but here was met by a strong door, which retarded his progress. After failing to get into the upper room, where all the lighter goods are stored, he retraced his steps, and undoing the bolts of the back door, walked out, leaving it open. Messrs. Kincannon, Wood & Co. did not discover anything missing, though it was hard to tell whether the burglar took anything or not. It is supposed he was after the finer goods above, and that nothing below suited his fastidious taste.

An attempt was made to get into Mr. E. B. Ely's store the same night. These affairs are getting quite frequent around town. Can't the perpetrator be caught?

From Hurliberton's.

EDITOR CHRONICLE:—Rev. Mr. Goodpasture delivered his first sermon to this (Bethel) congregation on last Sunday. His text was 1st Corinthians, 12th chapter and 27th verse—"Now ye are the body of Christ, and members in particular."

We hear this effort highly spoken of as being one of much sound judgment, and ably presented to his hearers.

We congratulate this congregation in having secured the services of this Christian gentleman, who, we think, will make them a most excellent pastor, and trust that all his efforts towards the advancement of the cause of Christ may be crowned with abundant success.

Farmers are busy sowing oats, and from present prospects there will be a large crop sowed. There is a great effort being made to plant a large crop of tobacco in this part of the country, but not a bit of White Burley is going to be planted. If any one ever had an idea of planting it they are ashamed to let it be known.

The general health of this community has been moderately good the past winter, though there have been a good many cases of pneumonia, but by the aid of our skillful physicians, B. F. Moody and Son, and J. B. Paine, but few cases have proved fatal. We are somewhat fearful of losing our young Dr. B. F. Moody from our community unless he quits going down on the pike so often; however, guess we had as well begin to learn to do without him, as the general impression is that this is a fixed fact. W. H. C. Jr. is another one of our neighboring young men that we are as certain to have to give up as we live; he has such a hankering on the outside that he can't begin to stay away longer than two weeks, and when he goes, remains from three to six days.

Make Reports.

EDITOR CHRONICLE: Banks, turnpike, bridge, school boards, county trustee and county clerks all make annual or semi-annual reports, and our newspapers have always been glad to publish statements from such, for the good of the people. I should be pleased to see a detailed showing from our county court house commissioners, and from the county court, showing receipts and disbursements, and what for. Davidson county makes a semi-annual or quarterly statement, which is interesting reading to Montgomery county people. Gentlemen of the county court and court-house commission, give us a detailed account of our affairs; give us light. All we want is to know how things are going.
